

ROAD CONSTRUCTION NOTICE

Significant construction work will begin at the intersection of Michigan Ave. and Waterville-Monclova Rd. on or around June 20th through October 2011.

The roadway will be widened for left turn lanes, new traffic signalization, sidewalks, drive aprons and a shared use path.

Traffic will be maintained during construction, but there will be periods when only one lane will be open with flaggers directing traffic. During non-working hours, two lanes will always be open. Business drives will be kept open by rebuilding half of the drive apron at one time. Residential drives will be closed for a few days when the apron is rebuilt & asphalt or concrete is properly cured.
