

Girl Scout Brownie Troop 10875 recently participated in the international project, Youth Global Day through the United Way. The project they choose was Baer Park, here in Waterville. They picked up litter, and redistributed the leaves that had blown around the basketball court, the tennis court and under the picnic tables. They also cleaned the slides and play area. The girls also did footprints around the path. The “Anthony Wayne Blue” paint was donated by Randy Perrino.

A Great Big THANK YOU to Troop 10875 for the great job that they did brightening up our community!
