REPUBLIC[®]
SERVICES

New Refuse & Recycling Containers are Coming to Waterville!!!!

The City of Waterville recently approved a new five-year contract for refuse and recycling services beginning on June 1, 2020. The City sought bids from five contractors and received bids from two bidders, Republic Services and Heartland Disposal Services of Napoleon, Ohio, with Republic submitting the lowest overall bid for each of the proposed one, three or five year contract term options. City Council selected the five-year contract term as the most cost effective for the City. As part of the new contract, the City will be converting from can/bag collection to the use of automated refuse and recycling containers or “toters” for weekly refuse & bi-weekly recycling collection. These two new containers, one for recycling and one for refuse will be available in 95 and 65 gallon sizes and will be supplied to each residential customer at no charge as part of the new contract. Few refuse contractors are willing to submit bids for the continued manual collection of cans and bags since it is labor intensive and results in greater injuries for collection personnel. The conversion to automated refuse and recycling containers is expected to be completed by August 2020. Although change can sometimes be difficult, the City of Waterville promises to work with residents to help insure a smooth transition to this new service. Monthly refuse and recycling fees will increase by approximately \$1.28 per month after the new containers are placed into service. If you have any questions, please contact the City office at (419) 878-8100.

“The Mayor’s Bridge to the Community”

First of all I would like to give a “BIG SHOUT OUT” to all of our staff members for keeping our GREAT city open and functioning during the COVID-19 pandemic. The office staff, Public Works, Police and Fire Departments have been working non-stop even though our community, like the rest of the world, had to think of new ways to get the job done. Our team has been extremely successful in providing city residents with the services they have come to expect and we thank them for all their efforts. In addition, many other people, including Council, have worked together with our City Administrator to maintain municipal government operations. I know that many of you may have been working from home and were able to keep focused on your jobs. Speaking of jobs.....as you begin to go back to your new normal, stop in and visit one of our local restaurants and retail shop and purchase some items.

Please know that your Council members, Finance Committee and Administrator are monitoring our city budget and have taken measures to minimize any interruption in public services. At this time, I am pleased to report that we are moving forward with our 2020 Street Paving Program as well as maintaining other essential services. In some cases you will observe some minor changes. Look for a new and improved refuse program as well as plans to continue to improve our Fire and Rescue Services. Several meetings have been held to evaluate, discuss and now take the next steps to put in place a vibrant fire program. Look for additional details to be released as soon as final plans are set. As I mentioned at the new Maumee River Bridge ceremony, the bridge will bring people together and so will an improved Fire Department.

In closing, I want to thank each of you, for making our city a great place to live and to raise our families. Please reach out to our City Administrator or myself at TPedro@ttlassoc.com, with your comments, concerns or questions.

Timothy Pedro

Mayor, City of Waterville

Emergency Shelters

The following Waterville churches have graciously offered to provide emergency shelter during tornado watch:

Zion Lutheran Church
22 N. Second St.
419.878.0266

First Presbyterian Church
611 Farnsworth Rd.
419.878.2806

Waterville United Methodist Church
102 N. Fifth St.
419.878.3645

City of Waterville Employee Recognition

The City of Waterville wishes to recognize the following employees for their continued commitment to our community:

Doug Meeker
Cindy Cressey
Jon Gochenour

Public Works Technician
Crossing Guard
Municipal Administrator

30 Years
15 Years
5 Years

SUMMER SAFETY TIPS

School is out and summer is here! Please have a fun and safe season, and watch out for our younger citizens who will be playing and celebrating during their summer vacation from school.

Are you aware that:

- Fireworks can be deadly?
- Even small firecrackers can cause serious damage?
- You can be held legally responsible for any damage you may cause by the illegal use of fireworks?

Water safety is a must!

- Never swim alone.
- Never dive into unfamiliar water.
- If possible, only swim in areas with adult supervision.

"GOOD

NEIGHBORS"

Waterville is a wonderful place to live and we want everyone to enjoy their surroundings.

Therefore, we ask that you take your neighbors into consideration by following the suggestions listed below:

Reminders:

- ♦ *Please trim all overgrown shrubs and low hanging branches that may be blocking your sidewalk.*
- ♦ *Obey the speed limits, especially on residential streets.*
- ♦ *Please be a good neighbor and clean up after your pet. You will also be eliminating the possibility of a fine!*

If there are trees or shrubs in the City right-of-way that need to be trimmed, please call the Public Works Dept. at 419-878-8108, Monday - Friday 8 a.m. - 4 p.m.

UNLIMITED TRASH PICK-UP

The Semi-annual Unlimited Trash Pick-up is scheduled for City residents on:
Saturday, June 27 (curbside by 7 a.m.)

Exclusions:

Curbside collection excludes the following materials:

- ♦ Yard Waste (including brush, grass, leaves, shrubs)
- ♦ Building materials (including paint, concrete, metal pipes and rocks)
- ♦ Liquids of any kind
- ♦ Hazardous Chemicals (including pesticides and insecticides)
- ♦ Dead animals
- ♦ Motor oil, Auto Parts and Tires

Appliances:

Residents are responsible for the removal of all Freon refrigerants from applicable appliances prior to collection by the contractor. A certification label must be affixed to the appliance. This requirement is mandatory by Federal Law.

Large, bulky items such as furniture and appliances will not require a bulk item sticker on this day only!

ENGRAVED BRICKS & PLAQUES FOR CITY BENCHES

WOULD YOU LIKE TO BECOME A PART OF WATERVILLE'S HISTORY WITH THE PURCHASE OF EITHER A BRICK OR A BENCH? EITHER WILL BE A PERMANENT GIFT AND THEY ARE AN EXCELLENT WAY TO COMMEMORATE ANY SPECIAL OCCASION, TO RECOGNIZE FAMILY MEMBERS, OR TO PROVIDE A LASTING MEMORIAL FOR A LOVED ONE.

Be the one who inspires the next generation!

Engraved Bricks are located at the Clock Tower building at the corner of the Anthony Wayne Trail and Farnsworth Road. Engraved bricks are available in two different sizes:

4" X 8" with up to three lines of text, up to 13 characters in each line (including spacing and punctuation) Cost : \$100.00

8" X 8" with up to six lines of text with up to 13 characters in each line (including spacing and punctuation) Cost: \$225.00

The Engraved plaque will be placed on a City Bench. The plaques will be attached to benches throughout the city.

The plaques are 8 1/2" wide by 5 1/2 " tall. There will be 4 lines available for engraving, 13 characters in each line (including spacing and punctuation)

Cost: \$450.00 (this includes the cost of the bench, the plaque and installation of the bench)

For more information or to find an order from, please visit our website www.waterville.org, under the Forms/ Misc. tab at the top of the page. Forms are also available at the Municipal Building at 25 North Second St.

***The City of Waterville reserves the right to approve all copy to be engraved on the bricks or the plaques.**

If you have any questions, please call the City at 419-878-8100.

Zoning Matters

Tips from the Inspector

PARKING: Parking in driveways for campers, motor homes camping trailers, boats and all other recreational vehicles and utility trailers is limited to 72 hours in a calendar week.

POULTRY AND LIVESTOCK: Having chickens or animals, like a goat, is permissible in the City of Waterville. However, in doing so you must keep the critters on your property, properly house, feed and clean up after them (waste and litter must not be taken to the yard waste transfer facility (Clean Wood) or placed into household or unlimited trash). The presence of these “pets” must not produce offensive odors, noise, dust, attract flies or rodents, produce health hazards or anything that offends the public.

NO GREEN: Keep yard waste, grass clippings, leaves and other organic materials off paved areas so these phosphorus sources do not enter storm drains and contribute to LAKE ERIE ALGAL BLOOMS.

GARAGE SALES: Garage sale, yard sale, and other similar signs may be erected during the days that such garage or yard sale is being conducted, provided that no such sign may be displayed for longer than 72 consecutive hours. Not more than three off-premises signs and one on premises may be displayed for any garage or yard sale, and such signs shall not exceed four square feet in area or contain any advertising material unrelated to the sale. No such sign shall be attached in any way to any utility pole, traffic or street signpost, or tree in or along any street right-of-way within the Municipality.

SHEDS: Any new building or building expansion requires a zoning permit from the City and may also require a building permit from Lucas County Building Regulations. Failure to obtain the required permit, before starting construction, doubles the cost of the permits.

FENCES: The City of Waterville does not have fence regulations. There is a requirement to maintain a 36” high, 25’ clear line of sight for corner lots which does apply to fences. A common oversight is failure to assure the location of the fence is on the appropriate property.

POOLS: All pools, in-ground or above ground require a permit. The only exception to this rule is pools that are less than 115 square feet (12’ in diameter) in area and 18” in depth. A pool permit cost is the same as for a zoning permit but qualifies the holder to apply for an exemption of the sanitary sewer portion of the water cost for water used to fill the pool. When filling a pool, record the beginning and ending meter reading and call this information to the Water Department (419-878-8101).

WATERVILLE FIRE DEPARTMENT

You Can Join the Waterville Fire Department:

Want to take your skills and abilities to the next level? The Waterville Fire Department is looking for individuals that are community-minded that would be interested in supporting the fire department as a Paid-Per-Call Firefighter and Emergency Medical Technicians. We provide and cover all the training necessary to represent your community. Please contact the station at

419-878-8198 and stop by for a tour. Maybe the brother and sisterhood of the fire service are what you're missing. Join the highly qualified crew of Station 77.

(Pictured Right): Firefighter / EMTs, C. Hooven & B. Welch)

Tips for Severe Weather Season:

As summer temperatures start to rise, so does Ohio's severe weather potential. Historically, the month of June is Ohio's greatest chance of seeing strong storms that produce tornadoes. In June of 2010, an EF-4 rated tornado struck the area and resulted in multiple injuries and fatalities. Please, take the time to review your severe weather plan with your family, before severe weather strikes.

If you would like to follow and monitor the weather more closely, the Storm Prediction Center, or SPC, forecasts potential severe weather days in advance. It's always great to review severe weather terminology with your family as well. Recently, the National Weather Service has updated its language to better communicate with the public. The image on the following page highlights the new, most commonly used vocabulary. The biggest addition you will see is the term, "tornado emergency." In the event we would experience a confirmed tornado, local news and weather stations may use this terminology to notify the public.

Tornado damage to Anthony Wayne H.S., July 12, 1992

WATERVILLE FIRE DEPARTMENT

Tornado Watch: Atmospheric conditions are favorable for possible tornadic development. Please be vigilant and monitor your local weather stations for rapidly changing conditions.

Tornado Warning:

A rotating supercell has been identified by radar or trained weather spotters that have spotted a tornado or funnel cloud. Seek shelter immediately

Tornado Emergency:

A confirmed, damaging tornado is in progress and is threatening human lives. You must shelter in the safest and strongest place possible. *See page 3 of this publication for Emergency Shelters located in the City of Waterville.*

Please take time over the next few weeks to review this important information from the National Weather Service with your family.

Warmer Seasons & Outdoor Fires: Understanding Ohio's Open Burn-Laws:

The Waterville Fire Department staff is frequently asked about such issues as open burning and recreational fires. The Department also responds to numerous incidents involving illegal, unsafe, or improper burning. Not only does the Ohio Fire Code address such issues, but the Ohio Environmental Protection Agency and local Air Pollution Control regulate such practices. For everyone's safety, we strongly recommend that you follow the regulations.

“Recreational fires”, as defined in the Ohio Fire Code, are those “outdoor fires burning materials other than rubbish where the fuel being burned is not contained in an incinerator, outdoor fireplace, barbecue grill or barbecue pit and has a total fuel area of 3 feet or less in diameter and 2 feet or less in height for pleasure, religious, ceremonial, cooking, warmth or similar purposes.” The Ohio Fire Code defines open burning as “the burning of materials wherein products of combustion are emitted directly into the ambient air

(continued on page 9)

WATERVILLE FIRE DEPARTMENT

(Warmer Seasons & Outdoor Fires Cont.) without passing through a stack or chimney from an enclosed chamber. Open burning does not include road flares, smudge pots, and similar devices associated with safety or occupational uses typically considered such as open flames, recreational fires, or use of portable outdoor fireplaces.”

These types of fires are the most frequent types of incidents that the fire department responds to for complaints. The most common complaint from neighbors is when fires are not conducted in accordance with the rules and regulations, or when the environmental conditions cause the smoke to migrate off the property into the residence of a neighboring property. Persons with chronic breathing problems can be affected by these conditions.

The following items below are important points to remember:

- Residents within the City limits of Waterville or within 1000 feet perimeter around the City cannot conduct Opening Burning.
- The only material that can be burned is clean, dry wood as a fuel source. Absolutely no yard waste or rubbish materials can be burned.
- If the fire is contained within an approved container (i.e., outdoor fireplace, barbeque pit, etc.) the fire must be 15 feet from a structure or combustible materials (i.e., picnic table, lawn furniture, etc.).
- For an open fire (recreational fire – no container), the fire must be 20 feet from a structure (this includes, but is not limited to: wood fences, detached garages, utility sheds, residential dwelling units, neighboring structures, or combustible materials).
- Conditions that could cause a fire to spread within 25 feet of the fire must be eliminated prior to ignition of a fire.
- The fire must be attended while burning, which includes smoldering fires.
- A fire extinguishing agent, such as a garden hose, bucket of water or portable fire extinguisher must be present while the fire is burning.
- The fire must not create an offensive or objectionable condition that interferes with neighboring residents’ use and enjoyment of their property. If this occurs, the Fire Department is required to request the responsible person to extinguish the fire.

If you have any other questions regarding fires on your property, please contact Chief Meyer or visit the Ohio EPA Open Burning Laws for more information.

WATERVILLE FIRE DEPARTMENT

Safe Boating and River Tips:

As the weather breaks and COVID-19 restrictions are eased, the Maumee River will attract thousands of eager visitors this summer. It's rich scenery, fishing, and water sports, make it a popular destination. If you choose to travel the river, please make sure you wear your life jacket and plan for the conditions. We also encourage you to seek advice from experts before traveling the river. There are several areas of rapids that can be exceptionally dangerous during high water levels and others that are simply impassible for watercraft. Last year, Waterville crews responded to a record number of water rescues on the Maumee. Thankfully, no fatalities were suffered. However, over half of the victims involved, **did not have a personal floatation device on or with them.**

Honoring The Past, Present, & Future

(Pictured left) Steven Brubaker, former Waterville Firefighter. Steven is now a member of the Midway Fire / Rescue Department in Pawley's Island, South Carolina. (Pictured above right) Assistant Chief Herb Royal dedicated 26 years of service to the Waterville Fire Department and will be greatly missed.

A tremendous thank you to Assistant Chief Herb Royal and Steven Brubaker. Both answered the call of selfless service. Both played an integral part in our community and department's success. It is our duty and responsibility to recognize you and your efforts.

Thank you Chief Royal and Steven Brubaker.

Each year the Waterville Fire Association awards scholarships to deserving students in the Anthony Wayne School District. The students must meet the requirements set forth by the Association. After reviewing their grads and interviewing them, the following students were awarded this year's scholarships:

Grady Radel, Brody Sahloff, Alyson Nightingale & Billy Trenka

The Carl Conrad Memorial Scholarship, which is awarded in memory of Carl Conrad who was a proud Waterville Firefighter, was awarded to Zachary Knapp

Congratulation to all of you!!!!

**CITY OF WATERVILLE

**BULK ITEM TAGS FOR MONDAY
TRASH PICK-UP ARE AVAILABLE AT
TOWNHALL FOR \$10.00**

Please don't wait!!

UPDATE

YOUR HOME PHONE OR CELL PHONE

ACCURATE CONTACT INFORMATION ALLOWS THE
WATER DEPARTMENT TO CONTACT YOU IF THERE IS
ANY ISSUE WITH YOUR WATER SERVICE OR YOUR
CONSUMPTION. IF YOU HAVE RECENTLY CANCELLED
YOUR LANDLINE PHONE AND ARE NOW ONLY USING
YOUR CELL PHONE OR CHANGED YOUR HOME PHONE
NUMBER.....PLEASE CALL THE CITY OF WATERVILLE
WATER DEPT. AT **(419) 878-8101** AND UPDATE THIS
INFORMATION.

Did you know.....

That if you call the Water Dept. and give us a beginning and ending meter reading when you fill your swimming pool, you can receive a credit on the sewer portion of your utility bill. You must call in the readings to (419) 878-8101 & have a pool permit to receive this credit!

HANDY WATER SAVING TIPS FROM THE WATER DEPARTMENT

Water your lawn & garden with good sense. Do it early or late, not at midday heat. Avoid windy days. See that water goes where it should and not on sidewalks, driveways or streets.

Remember this: A lawn sprinkler spraying 5 gallons of water per minute uses 50% more water in just one hour than a combination of ten toilet flushes, two 5-minute showers, two dishwasher loads and a full load of

HIGH CONSUMPTION???

If you notice that your Utility Bill is slightly higher than normal, 99% of the time it is a toilet leak. Most of the time you cannot hear the leak. We suggest that you put a few drops of food coloring in the tank of the toilet, and go back in 1/2 hour or so, and see if the color has leaked into the toilet bowl. If there is no change the first time try again later or over night. The cause is usually a worn flapper, or the flapper is just not sealing as it should. Sometimes even brand new toilets may need to be adjusted.

If you notice that you have a dripping faucet, you can be wasting up to 3 gallons of water each day!! That adds up to approximately 1000 gallons of wasted water per year.

Save Time & Money

Have your monthly water bill deducted directly from your savings or checking account!

*Contact the City of Waterville
Water Department at 419-878-8101 for more
information*

DID YOU KNOW?

The average indoor
water use in a typical
single-family home is
80-100 gallons per
person
per day!!!!

Important Reminder

We ask that all residents read the following reminders to assist us in keeping the City's storm sewers clear of debris and hazardous materials. We can all be a part of the solution to storm water pollution if we practice common sense in our daily routines. Some examples are:

- ♦ **When mowing grass, avoid blowing clippings into the street. They clog drainage basins and storm pipes.**
- ♦ **Never drain antifreeze, motor oil or paint into a storm basin or storm sewer.**
- ♦ **Never dispose of any household chemicals or any animal waste into the storm system.**

Fertilizer Use - Fertilizing right before it rains may seem like a good idea, but if the rainfall amount is heavy the fertilizer will not have time to soak into the soil and will wash off into the local rivers, creeks and ditches, often through storm drains. It will also wash off if you fertilize too often or too much at one, wasting your money\$\$\$

***"From
This Old
Catch Basin"***

WHY DOES MY BACKYARD FLOOD?

To keep water away from the house foundation, the ground on all four sides are sloped down from the house. If the property is large enough, the run off water is reabsorbed into the subsurface and recharges the water table, without effecting the house foundation.

In the case of present day subdivisions, building lots are too small and concentrated for this to happen. The addition of roads to service these subdivisions provides a solution to this problem. Storm sewer systems that drain the roadways also provide outlets for backyard and side yard areas of the building lots and for the sump pumps located in the basements. In the newest subdivisions the catch basins are located in the back corners of every two lots.

In older subdivisions this space may

be 4 to 6 lots. The back of the lots are set to grade to help drain to these catch basins, this area is often referred to as a drainage easement.

Except for other utilities such as electric, gas, phone, cable TV, etc. that share this easement, no buildings, sheds, or trees should be installed in this area.

The height of the ground should not be changed without first reviewing the drainage map for your area and the established grade elevations. Remember, if you make any changes to your property you could cause an adverse effect on a neighbors property even 3 lots away from you. Some building lots in the Village do not have access to the storm sewer systems and therefore rely on the surrounding ground to provide drainage for those lots.

If you are having backyard drainage problems, here are some items to consider to help solve the problem:

- a) Is your property part of an established drainage system? Some backyards are part of a detention basin and are designed to hold wa-

ter in heavy storms

- b) Is your property graded correctly to drain to the catch basin?
- c) Did someone change the drainage plan by adding dirt, sheds, trees, catch basin plugged, etc. on their property?
- d) If you are not part of an established drainage system, is the ground on your property frozen? (early spring rains can cause flooding if the ground is still frozen), or mostly impervious (heavy clay or rocky subsurface).
- e) Is your property graded to drain water away from your house? (a word of caution here, you may not run water onto a neighbors property except through an established drainage system)

***For a copy of a blueprint for
typical lot grading, please contact:***

The Public Works Department

at 419-878-8108.

**A big thank you to the
Anthony Wayne Area Arts Commission
for their hard work planting the colorful
planters decorating the Third Street Area!**

hard work & dedication in helping to keep Waterville beautiful!**

Countryside Garden Club for planting the flowers at Pioneer Point

Nilsson's Landscaping for planting the flowers at Pray Park and the
Point at Michigan & Farnsworth!

Anthony Wayne Area Democratic Club for maintaining the
flowers at Pray Park!

Waterville Police

Officer Spotlight

Officer Tina Nicolai has been with the Waterville Police Department for 23 years.

Tina was born and raised in Ohio. Tina attended the police academy at Owens College in 1991. Tina runs the Safety City Program and the departments property/evidence room. Tina has been involved with bicycle and motorcycle patrol. Tina enjoys spending time with her husband and going to her sons events when not at work. Tina's hobbies include dart ball, camping, and bike riding.

Waterville Police

Bike Patrol Program

The Waterville Police Department bike patrol program started in 1997. Through the years many of the officers have been involved with the program. There are currently four officers that enjoy biking through the community. You might have seen officers on the bikes at festivals and events through out the year. The officers assigned to the bike patrol are Sergeants Stephen Hallett and Gabe Rogers, Officers Bobbie Jo Newman-Buchanan and Jacob McConnell. Officer Josh Malone is assigned to the motorcycle. You will see them through out the summer at city events.

Front row: Officers. Bobbie Jo Newman-Buchanan, Josh Malone,
Back row: Sgt. Rogers, Officer Jacob McConnell

Officer Josh Malone on a 2007 Harley-Davidson
Electra Glide

Waterville Police

Speed Trailer

The Waterville Police Department has a speed trailer used to assist us with speed violations and related complaints. The speed trailer is used to alert drivers of the speed zone and speed driven. The speed trailer is available upon request by residence of Waterville in neighborhoods experiencing speeding problems. Please contact Officer Jacob McConnell, with any requests at: jmcconnell@waterville.org or by phone 419-878-8184.
